

## REMARKS

### The Amendments

No new matter is added by this amendment.

This is a divisional application of U.S. Patent Application 08/688,043, filed July 29, 1996, now U.S. Patent No. 5,976,896 (of which U.S. Patent Application 09/361,391, filed July 26, 1999, is a divisional), which is a continuation-in-part of U.S. Patent Application 08/254,302, filed June 6, 1994, now U.S. Patent No. 5,624,850.

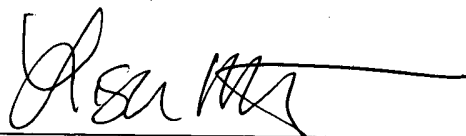

Claims 56-64 have been canceled. Claims 65-75 are the same as originally-filed claims 45-55, which comprise Group V claims from the Restriction Requirement of July 8, 1997, in the parent application 08/688,043. This amendment merely changes the elected group of claims to be prosecuted in this divisional application.

Applicants reserve the right to prosecute these claims, and all canceled claims, without prejudice in a continuing application.

Applicants respectfully request entry of the above amendments.
